👤 ABOUT ME

Motivated BCA graduate with a strong foundation in programming. IT systems, and software development. Skilled in teamwork, leadership, and problem-solving, with a keen interest in frontend development. Seeking opportunities to apply technical expertise and grow in IT support and analysis roles.

🎓 EDUCATION

Bachelor of Computer Applications
2021 - 2024
Kuvempu University
CGPA : 8.13

🌐 LANGUAGES

- Kannada
- English
- Telugu

⚙ PROJECTS

Alcohol Detector Auto cut-off engine system

- Purpose : Ensures safety by detecting alcohol levels and cutting off the engine.
- Components : NodeMCU, MQ3 sensor, touch sensor, relay module, buzzer, simulated motor.
- Functionality :
    1. Detects alcohol using MQ3 sensor.
    2. Cuts off the engine via relay module if alcohol is detected.
    3. Buzzer alerts upon detection.
- Key Features : Real-time implementation, practical IOT application for road safety.

💡 SKILLS

- Leadership
- Analytics
- Adaptability
- critical thinking
- Teamwork
- manual testing
- Communication
- Problem Solving
- HTML, CSS, JS
- Java, Python

AREA OF INTEREST

- Creating UI&UX interface designing.
- Passionate about front-end developing and Back-end developering.
